Measurement sheet

Made-to-measure catsuit and hood

Name _____ **Order no.** _____

Date _____ **Measured by** _____

Before you measure

1. Ask someone to measure you. Nobody can measure their own back, shoulders or crotch (U measurement) accurately, even with a mirror.
2. Use a soft sewing tape measure, directly on the skin or over thin underwear.
3. Stand upright and relaxed, feet slightly apart, breathing normally: do not hold your breath or pull your stomach in.
4. Give your real body measurements, without taking anything off. We reduce the pattern ourselves, according to the thickness, so that the latex fits like a second skin.
5. Nobody to help? Take the list to a seamstress, a tailor or an alteration shop: it takes them about ten minutes.

Catsuit

1. Biological gender _____

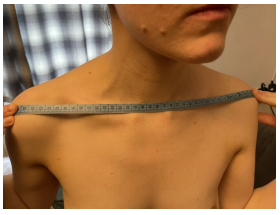

3. Height _____

Send us these measurements with the form on the made-to-measure page, or by replying to your order e-mail. All measurements in centimetres, taken on the body.
Questions: duckyducky.net/contact
